The Buhach Company  

Dear Sir,

I am very anxious to secure a case of your Buhach Insect Powder, which contains Pyrethrum.

Shortly before Christmas, I purchased a couple of cans of your powder in an attempt to kill the fleas in my dog's exercise yard. Everything else had failed, even dangerous chemicals, and I saw your product advertized in a sales catalogue. My problem, I don't know the company I bought it from, and I have not seen it advertized anywhere else.

Buhach powder--one can sprinkled in the ground in the yard, not only rid the yard of fleas, but after I repeated it three days later, seemed to control the fleas for several weeks. This may seem a minor achievement to you, but I have been near the end of my rope, having lost two champions (dogs) to the flea through allergies.

Enclosed is my SASE, which I wish you would use to let me know if this reaches you, and please let me know if you can supply me with a case of your Buhach Insect Powder, and if so at what cost.

Thank you,  

P. S. I tried calling you, but the operator said there was no phone listed for your company.
