

The Buhach Company

Gentlemen:

While on vacation in Alaska, at Camp Denali in Denali National Park, I came across your mosquito powder. What a pleasure! It really works and it, combined with wood smoke, makes my down jacket smell so nice that I am loathe to wash it. When things get difficult in Philadelphia, I just sniff my jacket.

In any case, I would like to know if your product is available in the vicinity of Philadelphia and, if not, whether I can purchase it from you. People from the West Coast I met in Alaska swore by Buhach for fleas in carpets, insects around pools and even fleas on animals. I don't know if these applications are correct, but I know a lot of people who would like a can of your product for Christmas.

Please let me know about how I can obtain Buhach either here or from you. Thanks so much.

Sincerely,
